

Oyudo Charles

PRODUCT DESIGNER

Multidisciplinary designer conceptualizing and crafting modern, pleasing products and experiences that solve problems for humans and impact businesses and startups growth.

WORK EXPERIENCE

Founding Product Designer - Solarsoft & Nebula

JAN 2022 - PRESENT / FULL-TIME

- Leading design processes from the ideating stage and ensuring working and tested prototypes get shipped.
- Collaborating closely with engineers, project managers, marketing team and key stakeholders.
- Creating user flows, site maps, low-fi and fully prototyped high-fi designs with micro-interactions.
- Created a design system.
- Wearing multiple hats; creative directing marketing campaigns, creating photo and video footage, handling event broadcasts

Product Designer - Refinable

AUG 2021 - NOV 2021 / CONTRACT, HONG KONG REMOTE

- Worked directly with the product lead and CEO as the lead designer.
- Created Design systems and standardized design across the entire product.
- Redesigned landing page and worked on new features and implementations skipping no steps in the design process.

Product Designer - Heroshe

JUL 2021 - JUN 2022 / FULL-TIME, REMOTE

- Learned the processes of a well structured business.
- Worked on products used by thousands of users including the creation of two platforms for the public administration.
- I performed several redesigns and creation of new features on websites, web & mobile apps across all products, skipping no steps in the design process.

Product Designer - gomoney

AUG 2019 - DEC 2020 / FULL-TIME, REMOTE

- Created user flows, site maps, low-fi and fully prototyped high-fi designs with micro-interactions for mobile and web applications.
- Worked with the marketing team to create visual content for several ads, social media & marketing campaigns
- I performed several redesigns and creation of new features on websites, web & mobile apps across all the products.
